

Main Report - HW03 AI GUI Usability EMS

Field	Value
Student	Lê Trung Kiên
MSSV	23127075
Scenario	Scenario D - User requests Support and Admin resolves it
Screens tested	D1, D2, D3
SUT	https://prod-dev.ems-fitus.cloud

1. Scenario Scope

This submission focuses on Scenario D - the support-request lifecycle across user and admin screens.

The three selected screens form one continuous Pool D flow: D1 lets the user create a support request, D2 lets the same user track that request and view the response, and D3 lets the admin search and process requests from the management side.

Screen	Description	Main artifact
D1	User - create support request form with image attachment	task1b_D1.md
D2	User - My Requests list and detail with the response	task1b_D2.md
D3	Admin - Support Requests list, Pending/Resolved tabs, search	task1b_D3.md

2. Task 1A - Shared GUI Checklist

- Checklist final: [gui_usability_checklist_final.md](#)
- AI prompt, source, and review processing: [gui_usability_checklist_processing.md](#)

3. Task 1B - Checklist Execution

- D1 execution report: [task1b_D1.md](#)
- D2 execution report: [task1b_D2.md](#)
- D3 execution report: [task1b_D3.md](#)
- Failure screenshots: [defect-screenshots](#)
- D1 evidence screenshots: [screenshots/D1](#)
- D2 evidence screenshots: [screenshots/D2](#)
- D3 evidence screenshots: [screenshots/D3](#)

4. Task 2 - User Testing

- Preparation protocol: [preparation_protocol.md](#)
- Participant table: [participant_table.md](#)
- Participant brief: [participant_brief.md](#)

- SUS score sheet: [sus_score_sheet.md](#)
- Usability report: [usability_report.md](#)
- Session notes folder: [session_notes](#)
- User testing video links: [video_links.md](#)

5. Task 3 - Cross-Browser / Cross-Platform

- Compatibility matrix: [compatibility_matrix.md](#)
- Cross-platform report: [cross_platform_report.md](#)
- Download screenshots: [screenshots/downloads](#)
- Defect screenshots: [defect-screenshots](#)

6. Bug & Usability Findings Log

- Aggregated log: [bug_usability_findings_log.md](#)

Google Form submissions must be kept consistent with the aggregated log.

7. AI Audit, AI Critique, Git Log

- AI audit report: [ai_audit_report.md](#)
- AI critique: [ai_critique.md](#)
- Git commit log: [git_commit_log.txt](#)

8. Agent Skills And Demo

- GUI usability testing skill: [gui-usability-testing/SKILL.md](#)
- AI audit entry skill: [ai-audit-entry/SKILL.md](#)
- Combined YouTube demo for both skills: <https://youtu.be/1km-tjIKVmw>
- Video links (Task 2 & Skill Demo): [video_links.md](#)

9. Supporting Materials

- No extra working-guide files are included in the submission folder.
